

# Bay-Bee

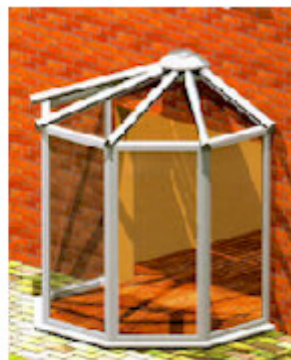

the compact conservatory

**Bay-Bee** is an ingenious new feature bay which manages to fill the gap between a patio door and a conservatory, letting in light and giving a new outlook which really helps to enhance a room. Available in two options - Standard or extended, Bay-Bee is set to answer the prayers of house builders and homeowners who are seeking the benefits of a concept conservatory, yet are restricted by a lack of available building space.

Both **Bay-Bee** models offer the same outward projection; the Standard Version has a residential door which can be positioned within any one of the units five vertical panels, and the extended version incorporates a French door in its front centre panels.
